

GUARDIAN GROUP

Interior Design: Residential Services

Our team of fully qualified and experienced Design Consultants can offer you a range of options specifically targeted to fulfill your requirements

From new house plans to room make-over's, or refurbishments, Guardian Interiors & Design will help you through all stages of design from initial consultation, measurements, costings, project management to delivery and installation.

Our upholstery and seamstress teams work "in-house" ensuring we can closely monitor quality control and meet approved timescales.

Visit to Retail Showroom: We are delighted for you to peruse our extensive library of fabric and wall covering books from leading designers at your leisure, or if a designer is free, we will gladly help you coordinate your fabrics and wall coverings.

We would however, recommend you [book an appointment](#) to avoid disappointment, and ensure you receive a one-to-one consultation.

Home Consultation: Guardian Interiors & Design can also arrange a home consultation. The designer can suggest options expanding on ideas from your initial consultation and can work with you on a scheme to suit your design requirements and reflect your life style. As well as showing you all the fabric and wallcovering options available to you, we incorporate into your scheme suggestions for all your soft furnishing requirements and give advice on furniture and those essential finishing touches.

Measurements: Initial measurements can be given to us in the showroom if known or can be taken at home consultation to provide quotations.

If you decide to go ahead with the work, our experienced fitters will visit and take accurate measurements and angles and collate any additional information to complete the work.

Fees: These are currently under review. Please contact our Sales Team on 01786 449912 for further information.

Finally, our aim is to offer a quality, professional service and complete customer satisfaction, and to enhance your home and lifestyle.
